**REAL-WORLD PRODUCT PERFORMANCE**

| Nightstick lights outperform most competitor products with superior lumen ratings, higher candela, longer beam distances and increased run times. The Nightstick product line is built around industry-leading LEDs, robust polymer housing materials, precision engineered reflectors, reliable real-world switch functionality and latest generation battery technology. Innovations such as Nightstick’s exclusive Dual-Light™ design, combining both flashlight and floodlight operating independently, or together for added versatility and safety, is shaping the idea of what a flashlight can do.

**UNWAVERING COMMITMENT TO QUALITY**

All products produced in Bayco Products’ dedicated ISO 9001 certified factories undergo rigorous quality control inspections by independent 3rd party inspectors at multiple points during the manufacturing process. Additional quality control inspections take place as products arrive and leave our distribution facility. This commitment to excellence continues throughout the customer service experience... with a goal of nothing less than 100% customer satisfaction. Our product quality is also backed by a Limited Lifetime Warranty.

**EXCEPTIONAL VALUE**

The Nightstick product line is designed and manufactured to outperform any other product in its class. Despite meeting or exceeding even the highest quality standards, Nightstick products cost less than comparable competitor offerings. We remain committed to delivering the industry’s best performing, highest-quality lighting products at the lowest possible price.
